

SIMS

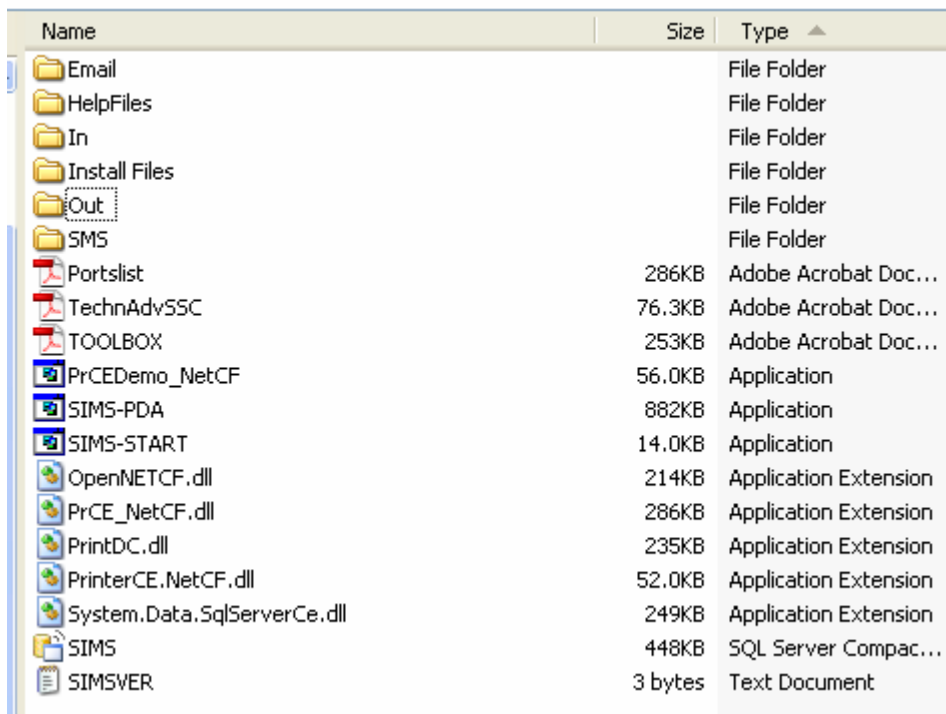

(Ship Inspection Management System)

How do I..... know I have the right files on my PDA?

This document explains how to check what program files you have on your PDA.

1. Below is a **list of files** that should be in your **Program Files\SIMS** folder on your PDA.
2. If any of these files are **missing**, please contact support for **replacements**.
3. You can check what files you have by connecting your **PDA** to your **PC** using '**Microsoft Active Sync**', and the USB cable that is provided with the **PDA**.
4. '**Active Sync**' is the communication software between **PDA's** and **PC's** and is normally already on your **PC**. If not, it can be downloaded free from:

<http://www.microsoft.com/windowsmobile/en-us/help/synchronize/activesync45.mspc>
